safety flooring / the design led revolution /

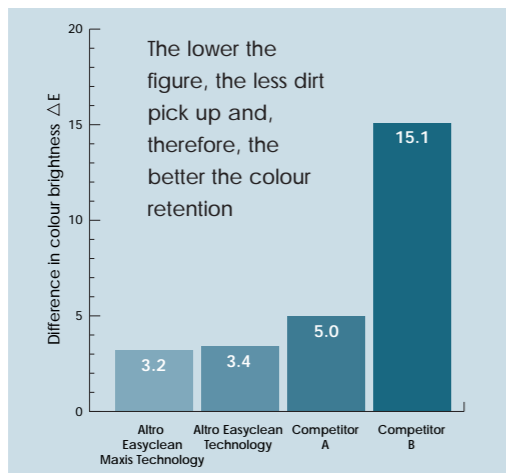

Welcome to a new and beautiful breed of safety floor. One with such stunning potential it comfortably takes pride of place in any design scheme. With Altro's unique developments in cleanability and colour retention, specifiers can now achieve an

attractive finish whilst reducing the risk of slip accidents in reception areas, corridors and halls everywhere. So you can rest assured you will satisfy your duty of care, with flooring and walling which stays looking good for years.

Altro safety has the technology. The secret to our safety flooring's low maintenance costs and its long-lasting, pristine condition is the incorporation of Altro Easyclean Maxis Technology and Altro Easyclean Technology. Both are independently proven to outperform competitor products for colour retention and ease-of-cleaning - a claim no other manufacturer can make!

Together with our new look safety products, Altro Easyclean Maxis Technology has revolutionised the specification of safety flooring in public areas. Also, with the inclusion of a bacteriostat through the entire thickness of our floors, we've earned the Certificate of Hygienic Quality and Merit from the Royal Institute of Public Health for our entire safety range.

The independent findings - colour retention

This graph demonstrates how Altro safety floors, incorporating Altro Easyclean Maxis Technology and Altro Easyclean Technology, perform versus competitor safety floors incorporating a treatment for ease of cleaning.

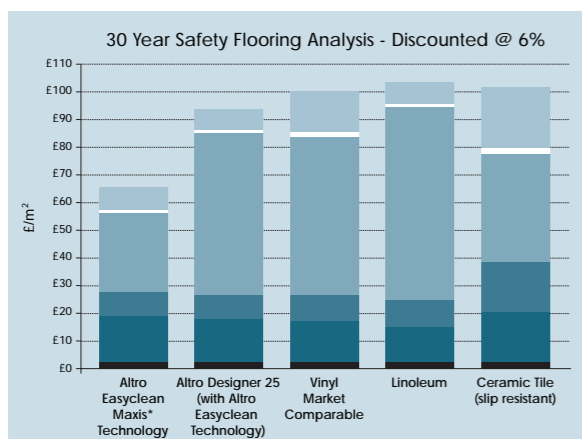

CLEANING RESEARCH
international

The comparison was made by the widely recognised, BSI Laboratory Soiling Test.

The independent findings - cleaning costs saved

Independent analysis into the costs of cleaning safety floors with Altro Easyclean Maxis Technology versus safety floors without, delivered the results below. As you can see, a 600m² Altro safety floor can save over £1000 in a year!

Floor Area m ²	Years				
	1	3	6	9	12
120	£200	£600	£1,200	£1,800	£2,400
240	£400	£1,200	£2,400	£3,600	£4,800
480	£800	£2,400	£4,800	£7,200	£9,600
600	£1,000	£3,000	£6,000	£9,000	£12,000
900	£1,500	£4,500	£9,000	£13,500	£18,000
1200	£2,000	£6,000	£12,000	£18,000	£24,000

Compare the cost

This chart demonstrates Life Cycle Cost relationships between Altro safety flooring, the market comparable and alternative flooring materials.
